

# DATA FOR PROGRESS

From March 1 to 2, 2024, Data for Progress conducted a survey of 1,221 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,221 unless otherwise specified.

**[1]** In the voting booth, which of the following issues do you consider **most** when deciding which candidate to vote for?

**[69]** Below are policies that some lawmakers in Congress are currently **proposing**.

For each, say whether you would support or oppose them:

— Making it easier for Americans to form unions and negotiate for higher pay and better benefits
